

OOP Course Project 1

“flashcards”

Author: Hubert Bogdański

What have you created?

I've created an console app for memorizing words in different languages

Did you have any problems?

- Yes I had small problems with compiling multi-file c++ project

Did you learn anything new?

- Yes, I've learnt how to compile multi-file c++ project

What could be improved?

- Definitely visual presentation
- More options regarding single collection could be added
- Saving/loading app state to/from file could be added
